

SATHEESH KUMAR S

PROFILE

I'm a third-year Agricultural Engineering student with a growing interest in technology and development. Even though my background stream is in agriculture, I'm learning programming and exploring tech skills to enter the IT field. I'm also curious about using technology to support agriculture in better ways. I may not always show what I know, but I believe in learning steadily and doing my best. I'm looking for a role where I can keep improving and contribute meaningfully

TECHNICAL QUALIFICATION

- **Basic Python:** Completed course from Springboard, Infosys.
- **Time Management:** Completed course from Springboard, Infosys.
- **Introduction to Microsoft Excel:** Completed course on Coursera.
